

## **CAMPUS UPDATE – November 25, 2020**

We learned today that a staff member tested positive for the COVID-19 virus. The staff member last worked on Thursday, November 19. This individual did not feel well and was tested under the advice of their personal physician. This team member wore a facemask while working and followed infection control procedures. After speaking with the health department, there is deemed to be no further risk to any residents in Healthcare or Assisted Living due to the length in time of when the staff member last worked on campus.

As protocol from infections identified last week, we tested all Healthcare, Assisted Living and Memory Support residents yesterday, November 24. Staff members were tested yesterday as well.

Currently, there is no visitation to Healthcare, Assisted Living and Memory Support until further notice.

Thank you and Happy Thanksgiving,

Sincerely,

A handwritten signature in black ink, appearing to read "Sean Huyett".
