

CAMPUS UPDATE – January 14, 2021

We need to report we received positive COVID-19 test results for three team members today.

Two of these people work in Assisted Living. One person was identified through our testing procedure on January 12. The second individual sought medical advice on their own, was tested for COVID-19 on January 14 and last worked on January 10.

The third person receiving a positive test result works on the 6th floor of the Drinkard Healthcare Center and was identified through testing done on campus. All three of these team members followed proper infection control procedures while working and wore Personal Protective Equipment (PPE) properly as required.

Staff members were tested today as the twice-weekly cycle for COVID-19 continues. All residents of Assisted Living and Healthcare were tested yesterday, January 13.

Visitation in all care areas, Assisted Living, Drinkard Healthcare, Memory Support and the 6th floor of Hearthside, remains suspended. Families are permitted to visit those residents receiving end of life care.

Visitation for all apartment and cottage residents is limited to outdoor spaces only. Family members are not permitted in our buildings.

Next Vaccination Day: Be sure to mark February 3 on your calendar.

The team from Walgreens will return to our campus on February 3 to administer the second dose of the COVID-19 vaccine. Be sure to keep your vaccination card in a safe place. You will need it again on February 3.

Sincerely,

A handwritten signature in black ink that reads "Sean M. Huyett".
