

CAMPUS UPDATE – January 15, 2021

This morning we transferred two residents to the isolation area on campus. Both exhibited symptoms for COVID-19. One person transferred out of Memory Support and the other resident was transferred from the 6th floor of Hearthside Healthcare. There are now four residents in isolation and one went to the hospital this afternoon for evaluation and treatment.

We also need to report we received a positive COVID-19 test result for one team member today. This person is a member of our Environmental Services Team who last worked on January 12. The individual did not feel well, sought medical care on their own and received the positive test result today. Following our contact tracing, it was determined this team member did not have any direct interaction with residents and no exposure occurred.

Staff members were tested on January 14 and the results are pending at this time. Retests will occur on January 19 as the twice-weekly cycle for COVID-19 continues. Assisted Living and Healthcare residents were tested on January 13.

Visitation in all care areas, Assisted Living, Drinkard Healthcare, Memory Support and the 6th floor of Hearthside, remains suspended. Families are permitted to visit those residents receiving end of life care.

Visitation for all apartment and cottage residents is limited to outdoor spaces only. Family members are not permitted in our buildings.

Sincerely,

A handwritten signature in black ink that reads "Sean M. Huyett".
