

CAMPUS UPDATE - October 12, 2020

Westminster Canterbury of Lynchburg learned over the weekend that one of our staff members tested positive for the COVID-19 virus. This individual works for our Senior Independence Home Health and Hospice agency and did not have contact with any of our clients or residents. The staff member was wearing personal protective equipment (PPE) while working.

We tested the rest of the Senior Independence team members and identified a second person as being positive for COVID-19 virus. This person had contact with four residents in the Drinkard Health Center on Friday, October 9. All residents in healthcare were tested last week and all had negative results. We will retest Drinkard residents on Wednesday, October 14.

This second staff member was tested as scheduled on October 6 and the result was negative. The individual is asymptomatic and wore appropriate PPE during limited visits.

Thank you for your continued patience and understanding.

Sincerely,

A handwritten signature in black ink that reads "Sean Huyett". The signature is written in a cursive style.
