

CAMPUS UPDATE - October 30, 2020

There are no new cases of the coronavirus on campus for the past week.

We did identify another staff member who tested positive for the COVID-19 virus. This individual works for our Senior Independence Home Health and Hospice agency **and did not have contact with any residents on the Westminster Canterbury campus for the past two weeks.**

Family visitation for residents in apartments and cottages has expanded to include weekend visits. All visits must be outdoors during the hours of 10 a.m. to 6 p.m. Please visit the "Schedule Family Visit" link on our public website (www.wclynchburg.org) or the internal Resident Website to schedule a visit and for instructions. Or call the Resident Life Office at Extensions 3515 or 3516 to make an appointment.

Drinkard Health Center visits resumed October 26. June McNamara, social services coordinator, is the contact for these types of appointments. Assisted Living residents continue to enjoy family visits.

It was good to see activity on the Bridge the past few days as residents and staff members turned out to vote for their favorite pumpkins. We have a lot of creative talent here and it was hard to choose. Thank you to everyone who submitted pumpkin entries and door decoration entries too. Kudos to Dining and Resident Life teams for sponsoring these activities.

Please continue to wear facemasks, wash your hands often and practice social distancing in all public areas on and off campus. Thank you for your continued patience and understanding.

Sincerely,

A handwritten signature in black ink, appearing to read "Sean Huyett".
