

WCL CAMPUS NEWS UPDATE - JULY 19, 2020

Westminster Canterbury of Lynchburg has now completed two rounds of testing for the COVID-19 virus on July 7th and 16th. Individuals will be notified if their results are positive and the website will be updated. We are receiving some results from the second round of testing yet still don't have all testing from the first round.

Based on the results received, there are no positive results for the residents, which is great news. **However, there was one new positive test result for a staff member.** This is the second staff member to test positive since we started testing.

This staff member worked on the 3rd Floor of the Drinkard Healthcare Building. The staff member last worked on July 10th and works part-time at WC. The staff member was asymptomatic and wore personal protective equipment while working. Our staff member is okay; we anticipate a full recovery.

Wearing a mask decreases the spread of this virus. **Please remember the importance of properly wearing your mask to ensure we don't spread this virus to others.** Thank you as we all strive for excellence to protect our residents from Covid-19.
