

CAMPUS UPDATE – July 20, 2020

We received updates today that we have two new positive test results for staff members. These are the third and fourth staff members to test positive since we started testing.

We have contacted any residents, as well as their families, who may have come in contact with these infected staff members.

Westminster Canterbury of Lynchburg has now completed two rounds of testing for the COVID-19 virus on July 7th and 16th. Individuals will be notified if their results are positive and the website will be updated.

We have received all first round results as of today.

The rest of the tests were negative.

We continue to receive results from the second round of testing. We will be performing a third round of testing in the next two weeks. We have not set a date for the third round as we wait for all results to come back from the second round.

Thank you for your patience and understanding.
