

CAMPUS UPDATE - August 3, 2020

Westminster Canterbury of Lynchburg has now completed three rounds of testing for the COVID-19 virus. Individuals will be notified if their results are positive and the website will be updated.

Based on the results received to date, there are no positive results for our residents. **However, there are two new positive test results for staff members.** These are the sixth and seventh employees to test positive since we started testing for COVID-19.

These staff members work in the building and grounds, and customer service departments. They last worked **July 31** and do not work in healthcare or assisted living areas. The staff members were asymptomatic and wore personal protective equipment while working. These employees are okay; we anticipate full recoveries.

We will perform a fourth cycle of testing in the next two weeks. We have not set a date for the fourth round as we wait for all results to return from the third round.

Thank you for your patience and understanding during these unprecedented times.
